Project Meetings

4th Transnational Project Meeting - Southampton, UK

The project partners held the first face-to-face meeting on May 12-13, in Southampton, hosted by Europeak. During this meeting, the partners had the opportunity to meet in person for the first time to discuss: The next steps on IO3 and the piloting phase of this Intellectual Output, dissemination Strategy, Quality, and Evaluation of the project. The partners started to plan the Multiplier Events that will take place in each partner's country and also addressed management issues.

3rd Transnational Project Meeting

The 3rd TPM was held online on January 28, 2022, and all project partners attended to discuss the Intellectual Outputs Progress, namely IO3 that was being developed at the time, and some aspects related to dissemination activities, as well project management and quality assurance.

Intellectual Outputs

Intellectual Output 3

During the past months, the partners developed the lesson modules in PowerPoint slides corresponding to the modules that comprise the Framework for a Curriculum, and which are:

- Module 1: Preparation for Employment
- Module 2: Cultural sensitivity for communication
- Module 3: Confidence-building skills for presentations, workshops and training courses
- Module 4: Telephone communication skills
- Module 5: Web-conferencing skills
- Module 6: Speaking: functions in business/professional communication
- Module 7: Social speaking
- Module 8: Focus on Reading
- Module 9: Focus on Writing
- Module 10: Focus on Listening

These PowerPoint files were then converted into SCORM, which is the platform that will create to the e-course.

The members of the direct target group of the project (unemployed learners) involved in the piloting phase and those reached through a widespread dissemination strategy will increase their professional English skills and thus boost their employability.

New Blog Article

Conversion of Course into SCORM

Whenever you have to plug in a device to your computer, you usually use a USB port, right? That's a standardized specification that all technical hardware makers abide by, so all of your products work with each other easily. (...)
